DESCRIPTION	<p>Granby has a direct service gifted program for identified students in grades 3-8. Two full time teacher/coordinators provide direct instruction in a pull-out resource setting to small groups of identified students at each grade level. Within the resource setting, students work on individual and/or small group projects, studies, and investigations. Students in grades 5-8 also participate in several academic competitions each year, for example, Knowledge Master Open, Mathfax, Mathcounts, Future Problem Solving.</p> <p>Teacher/coordinators also provide collaborative consultation to classroom teachers to help modify/expand curricular areas for gifted students. They also demonstrate activities and lessons for students at all grade levels.</p> <p>In grades K-2 the elementary teacher/coordinator provides consultation to teachers and parents regarding modifying and expanding curriculum for potentially gifted students.</p> <p>Though not part of a formalized gifted program, the high school offers numerous Advanced Placement courses and independent study opportunities.</p>
